# BIG DREAM

THE FIRST COFFEE MACHINE IN THE WORLD IN WHICH 100% OF THE COMPONENTS ARE MADE FROM STAINLESS STEEL.

Everything the most demanding Barista can wish for in a top-level coffee machine. **All its components in stainless steel**, exceptional thermal stability, double pre-infusion system ...

**Long Life: Created to last.** Stainless steel has enabled us to create a long-lasting product which is therefore more sustainable. Is immune to lime scale which cause of 70% of repairs to professional coffee machines.

**Energy efficient.** As well as using stainless steel, our engineering department also introduced additional measures to achieve energy savings of 40% compared to a traditional machine.

**100% coffee. 100% healthy.** With stainless steel internal components there is no migration of heavy metals to the coffee infusion that might alter its flavour, aroma or texture. There is no nickel, no lead...

**High Technology.** Big Dream is a product that incorporates the industry's latest technology, in regard to both hardware and software.

## MAIN FEATURES

**Manufactured 100% from stainless steel.** All components are stainless steel, replacing the copper and brass of traditional machines.

**Multi-boiler technology** (on/off by group)/saturated groups.

**Independent steam boiler.**

**Thermal lagging** on boilers (coffee and steam) and groups.

**Control PID**(+ 0,1°) for each group and steam boiler.

**Thermal stability** (+- 0,2°).

**Dynamic preheating** (coffee groups).

**Energy efficient** (- 40%).

**Two pre-infusion options** (soft y standard).

**Precise control of water temperature** for infusions.

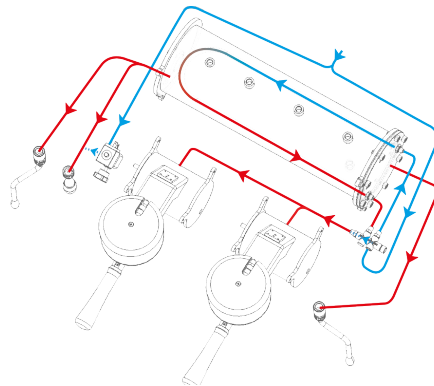

**Powerful steamer** (12 mm anti-lime scale tube with double stainless steel wall).

**High-precision filters in AISI 304 stainless steel.** Thickness: 1 mm. All standard measurements: 7/14/18/21 g.

**Adjustable cup warmer.** From 30° to 60°C.

**TFT touchscreen.** Functional, intuitive software. Multiple functions. Total control.

**Designed for baristas:** Low height (49 cm), mirror effect, joystick steam controls: two positions, LED in work area, RGB LEDs on button pad, 5 selections.

## MODELS AND FINISHES

2GR

3GR

In addition to the 5 standard colours, the possibilities to customize our Big Dream Plusome up to 250 more colours.

## TECHNICAL DATA

|                                | 2GR           | 3GR           |
